ACKNOWLEDGEMENTS

The authors thank the members of the Fund Mapping Advisory Committee for their generous feedback and guidance in updating the report:

Barb Bartle
Lincoln Community Foundation

Carol Fichter
Nebraska Department of Education

Dean Folkers
Nebraska Department of Education

Jen Hernandez
Nebraska Children and Families Foundation

Lorena Hernandez
Nebraska Department of Labor

Michelle Krehbiel
University of Nebraska-Lincoln Extension

Monica Miles-Steffens
Nebraska Commission on Law Enforcement and Criminal Justice

Karen Stevens
Nebraska Department of Education

The authors also thank the many representatives of Nebraska organizations who provided helpful information about expanded learning opportunity programs and funding.

Beverly Buck and Peggy Cuciti, authors of the University of Colorado – Denver report *Funding Map for After-School Programs in Colorado: Proposal to Colorado Afterschool Network*, provided advice and, along with the Colorado Afterschool Network, gave their authorization to use the federal funding template they developed. The template was initially used in the *August 2008 Expanded Learning Opportunity Fund Mapping Project Report* and is used again in this updated report.

Funding for this project was made possible by the Nebraska Community Learning Center Network, through support of the Charles Stewart Mott Foundation.

INTRODUCTION

In January 2008, Nebraska Governor Dave Heineman hosted the Governor's Summit for Expanded Learning Opportunities. The Summit explored collaborative efforts of schools and community leaders to create expanded learning opportunities for Nebraska's children and youth. Following the event, Governor Heineman asked the Nebraska Children and Families Foundation and the Nebraska Community Learning Centers Network to map funding for expanded learning opportunities in Nebraska.

Fund mapping ties into the long term goal of the Nebraska Children and Families Foundation and the Nebraska Community Learning Centers Network to promote greater efficiencies through increased coordination, advocate for additional support for projects that meet the needs of children, families, and communities, and enhance the ability to build a broad constituency for additional, stable cross-sector funding for such community-based initiatives.

In August 2008 a report, *Expanded Learning Opportunity Fund Mapping Project*, was released. The report summarized federal and state funding available for expanded learning opportunities, and summarized surveys of Nebraska expanded learning opportunities programs' reports of their financial support. The 2008 report was used to identify funding opportunities and build collaborations with non-traditional expanded learning opportunities partners.

Federal funding opportunities, particularly those available through the American Recovery and Reinvestment Act of 2009 (ARRA), along with feedback from state and local partners, created a desire to update the Fund Mapping report. The updated report, *Expanded Learning Opportunities: Updated Fund Mapping*, updates funding figures, includes ARRA funding, includes additional state funding information, and reorganizes the content for easier reading.

Copies and subsequent updates to this report, along with profiles of community-based programs in Nebraska and additional information about expanded learning opportunities, may be found at the Nebraska Children and Families Foundation website: <http://www.nebraskaclcnetwork.org>.

FUND MAPPING APPROACH AND REPORT COMPONENTS

Throughout this report, the term *expanded learning opportunities* is used to collectively refer to **early childhood** programs for children from birth to five, **afterschool** programs for school age children (including Community Learning Center programs), and **parental involvement** programs.

Expanded learning opportunities have the potential to serve a significant proportion of Nebraska's population. Children under 18 years of age comprise approximately **25% of Nebraska's population**. A recent study of afterschool programs for school age youth¹ found that:

- Approximately **11% of Nebraska's K-12 children participate in some type afterschool program** and spend an average of 7 hours per week in the program
- **Thirty-six percent of Nebraska K-12 children care for themselves** after school and spend an average of 7 hours per week without supervision.
- Parents/guardians of approximately one-third of K-12 children not already enrolled in an afterschool program express **interest in enrolling their children** in such a program if it were available to them.
- Parents listed **cost as one of the major reasons** for not enrolling a K-12 child in an afterschool program.

Analyzing the flow of funds to support programs providing expanded learning opportunities is crucial to understanding what **financial commitments** are being made, and by whom, to provide educational opportunities for our children and youth. Fund mapping will help answer questions such as: To what extent are Nebraskans funding programs? Are there opportunities for collaboration to make better use of funding? What kinds of programs are not receiving funding? Are there funds available that are not being tapped?

Mapping funds available for expanded learning opportunities is difficult because of: the multitude of organizations that deliver programs; the diverse sources of personal, public, and private funds that support programs; and the sometimes duplicative or overlapping information about funding sources.² Across Nebraska, many individuals and organizations provide expanded learning opportunities for Nebraska's children. These range from at-home care providers to large, statewide programs for youth. Some programs are licensed or certified, while others are not. Some are operated by governmental agencies and others are operated by faith-based organizations, other non-profits, or individuals. There is **no single point of contact** for the many programs that comprise expanded learning opportunities across Nebraska. The fund mapping described in this report relied on a variety of sources to develop a picture of funding for expanded learning opportunities.

¹ 2009 *America After 3PM Survey*. Nebraska summary included in this report as Appendix A. Nebraska data may also be found at: http://www.afterschoolalliance.org/AA3PM_states.cfm?state_abbr=NE.

² *Follow the Money: A Tool for Mapping Funds for Out-of-School Time Initiatives* found online: <http://www.financeproject.org/publications/FollowTheMoney.pdf>. Document accessed November 2009.

FUND MAPPING RESULTS

The fund mapping includes **current** funding devoted to expanded learning opportunities and as yet **untapped** funding that may be available. The data for this report come from many information sources, thus there may be areas of overlap and duplication. In order to provide as complete a picture as possible, this report errs on the side of inclusion of funding information rather than erring in omitting information. Programs that might be a source of funding for expanded learning opportunities are included, even if Nebraska has not traditionally used those programs to fund expanded learning opportunities.

FEDERAL FUNDING

The federal government, through on-going and special grant competitions, provides significant funding for expanded learning opportunities. The report focuses on **on-going programs** (rather than one-time grant competitions or research grants) and funds made available through the American Recovery and Reinvestment Act of 2009. Many of the programs discussed do not exclusively fund expanded learning opportunities. For example, the U.S. Department of Education's *Fund for the Improvement of Education* grants between \$300-400 million for a wide range of education-related service and research programs. The figures included in this report do not intend to suggest that all such funds are devoted to expanded learning opportunities. Rather, that expanded learning opportunities appear to be an eligible use of grant funds. Additionally, some programs may have **additional eligibility requirements** or limitations. For instance, some funding may be granted through formulas and others through competitive applications. Some programs may limit the amount that may be spent on "service delivery" (i.e., directly providing services/care to children) and others may have no such limitation. A complete description of program criteria associated with possible funds requires analysis beyond the scope of this report.

On-Going Federal Funding Programs

Seven federal departments and agencies sponsor **38 on-going grant programs** that may be used to fund expanded learning opportunities (Appendix B),³ including: Department of Education (14), Department of Health and Human Services (10), Department of Justice (6), Corporation for National and Community Service (5), Department of Agriculture (1), Department of Labor (1), and Environmental Protection Agency (1). The **twelve largest** federal programs identified are listed in Table 1.

³ The format and layout for the table was based on the report: "Funding Map for After-School Programs in Colorado: Proposal to Colorado Afterschool Network," prepared by The Center for Public Private Sector Cooperation and Center for Education Policy Analysis, School of Public Affairs University of Colorado at Denver and Health Sciences Center, July 2007. The information in the table was derived from the Catalog of Federal Domestic Assistance (CFDA); all information can be found online at: <http://www.cfda.gov/>.

TABLE 1

CFDA #	Federal Programs that Allow Funding of Expanded Learning Opportunities (Granting Agency)	Total Program Funding (FY09 Estimate unless otherwise noted)
93.596	Child Care Mandatory and Matching Funds (HHS)	\$2,917,000,000
93.575	Child Care and Development Block Grant (“Discretionary funds”) (HHS)	\$2,127,000,000
93.224	Consolidated Health Centers (HHS)	\$1,915,000,000
84.287	Twenty-First Century Community Learning Centers (Education)	\$1,081,166,000
17.259	Workforce Investment Act Youth Activities (Labor)	\$ 861,000,000
10.500	Cooperative Extension Service (Agriculture)	\$ 453,461,047
84.215	Fund for the Improvement of Education (Includes Carol White physical education program) (Education)	\$ 383,908,000
84.047	Upward Bound (Education)	\$ 362,600,000
93.243	Substance Abuse and Mental Health Services - Projects of regional and national significance (HHS)	\$ 351,705,645 (FY 08 est.)
84.334	Gaining Early Awareness and Readiness for Undergraduate Programs (GEAR UP) (Education)	\$ 313,212,000
94.006	AmeriCorps State* National & NCCC (CNCS)	\$ 258,960,000 (FY 07 est.)
84.184	Safe and Drug Free Schools National Programs (Education)	\$ 220,240,000

At least one Nebraska organization received some funding from all but one (GEAR UP) of these large programs in at least one of the past three years. Of the 38 federal programs identified, there were **six in which no Nebraska organization received funding** and two for which we were unable to find any funding information for Nebraska. The U.S. Administration for Children and Families maintains a useful website that enables users to search for federal funding sources that support afterschool programs (<http://www.acf.hhs.gov/afterschoolfund/>). A search in December 2009 resulted in links to 62 programs not included in the Appendix B table. These additional programs are included in Appendix C.

American Recovery and Reinvestment Act of 2009 (ARRA) Programs

Time-limited grants for expanded learning opportunities were made available through ARRA. Some of the ARRA funds have already entirely disbursed, while others still have opportunities for grants over the next year. It is difficult to track the ARRA funding cycles and eligibility requirements, given the typically short window from announcement to award. Two methods were used to identify expanded learning opportunity programs:

1. On-going federal programs (Appendix B) were cross-referenced to programs that received *additional* funding through ARRA. Twelve ARRA funding streams (Agriculture, Education, Labor, and Health and Human Services) were identified as having the potential to fund expanded learning opportunities (Appendix D). As with the on-going federal funding table, it is possible that some programs that might provide federal funding were missed or have funding that is only partially available for expanded learning opportunities programs. Nebraska received funds from five of the twelve ARRA programs listed in Appendix D. In January 2010, Nebraska's Department of Education submitted an application for a \$122.6 million ARRA Race-to-the-Top Incentive Grant. We were unable to verify whether Nebraska received any funding under the Capacity Building for Traditionally Underserved Populations ARRA program. Therefore, opportunities for Nebraska to access expanded learning opportunity funds through the remaining five ARRA programs may be available: School Improvement Grants; State Fiscal Stabilization Fund – Government Services; Consolidated Grants to the Outlying Areas; Youthbuild; and Head Start.
2. A search for ARRA programs for afterschool programs on the Administration for Children and Families Afterschool.gov Web site identified six ARRA funding sources for afterschool programs at <http://www.afterschool.gov/arra/arra.html> (Appendix E). Of the six ARRA programs in Appendix E, Nebraska received funding in 2009 from all but one: What Works and Innovation Fund (Department of Education). This program includes \$650 million available to local educational agencies (LEAs) and nonprofit organizations for Investing in Innovation (i3) Fund. LEAs and nonprofit organizations can partner to request funds under this program, with development pre-applications due in the spring of 2010 and funds to be obligated by September 30, 2010.⁴

STATE SUPPORT FOR EXPANDED LEARNING OPPORTUNITIES

The State of Nebraska provides funding for expanded learning opportunities across the state. Some of the funding comes from federal grant dollars the state receives (such as those summarized in the previous section), other funds come from state general funds. As part of the August 2008 fund mapping report, a convenience sample of state agencies and private funders was conducted. **Federal funds were the most frequently cited primary source of dollars** that these funders disbursed (Appendix F). This section focuses on some of the major expanded learning opportunity funding managed by the State of Nebraska.

Federal to State Flow-through Funding for 21st Century Community Learning Centers

Community Learning Centers (CLCs) are a specific type of afterschool program that are school-based or linked, operate during non-school hours, and serve K-12 students. There are variations in the types of programming CLCs offer, but generally, they bring together core program components including academic achievement, social/behavioral support and family/community engagement.

⁴Information on the Investing in Innovation Fund can be found in a U.S. Department of Education Summary Document at: <http://www2.ed.gov/programs/innovation/investing-in-innovation-summary.ppt>.

The primary federal source of funds that contribute to Nebraska CLCs is the 21st Century Community Learning Center program from the U.S. Department of Education, granted through the Nebraska Department of Education. As part of the No Child Left Behind Act, this program supports the creation of CLCs that **provide academic enrichment opportunities during non-school hours for children**. The program helps students meet state and local student standards in core academic subjects, offers a broad array of enrichment activities, and offers literacy and other educational services to the families of participating children. Because the 21st Century CLC is a formula grant, Nebraska has no control over the amount of money it receives from the federal government. The state does hold discretion over the direction those funds will take once they are obtained, however. Table 2 presents the funding made available through this program in recent years.⁵

TABLE 2
21ST CENTURY COMMUNITY LEARNING CENTER DOLLARS IN NEBRASKA

Fiscal Year	Amount	% Change
2002	\$1,522,706	--
2003	\$2,755,958	81%
2004	\$4,895,445	78%
2005	\$4,856,279	-1%
2006	\$4,807,715	-1%
2007	\$4,807,715	0%
2008	\$5,297,714	10%
2009	\$5,297,714	0%

Center for Student Leadership and Extended Learning

Extended learning opportunities are one of the three focus areas of the Center for Student Leadership and Extended Learning (CSLEL), a function of the Nebraska Department of Education. The Center, governed by the State Board of Education, was established by the 2009 Legislature (LB 476) to support student leadership development and new research/best practice implementation, as well as the expansion/coordination of extended learning activities for Nebraska students. State general funds support the Center, and \$450,000 was appropriated for each of FY09-10 and FY10-11. Afterschool programs are included in extended learning opportunities as an activity conducted outside of the normal classroom.

University Extension Programs

The University of Nebraska- Lincoln (UNL) Extension serves all 93 counties in the state of Nebraska and is a division of the Institute of Agriculture and Natural Resources (IANR) which belongs to the University of Nebraska system. 4-H Youth development is one of the many programs UNL Extension operates. UNL Extension 4-H Youth Development is the most common extension program involved in after school programming. 4-H Youth Development is involved in after school programming in the following ways: training after school workers or volunteers, providing curriculum, delivering research based youth programs, or administrative leadership. The most common way UNL Extension supports afterschool programming is through

⁵ Appendix G provides a more detailed description of 21st CCLC funds in Nebraska, including a list and a map of Nebraska recipients of 21st Century Community Learning Center funding from 2005-2009.

in-kind financial support such as salary, space, curriculum, and supplies. UNL Extension is funded by the following funding sources: State government (45%), grants, contracts, & fees (30%), county government (16%) and federal government (9%).

Nebraska Commission on Law Enforcement and Criminal Justice

Another key source of afterschool programs in Nebraska comes from the Nebraska Commission on Law Enforcement and Criminal Justice. The Commission administers the state Juvenile Services and County Aid grant programs. These programs require counties/communities to develop a comprehensive juvenile service plan in order to be eligible to receive funding. Many counties/communities prioritize after school and mentoring as needs. For fiscal year 2009 (awarded July 2009) the Commission granted approximately \$260,000 between the two grant programs for mentoring and after school initiatives statewide.⁶ Appendix H provides a detailed description of some of the programs funded through Commission programs.

State Juvenile Services grant dollars are appropriated to the Commission on an annual basis from the Nebraska Legislature. There is approximately \$600,000 available on an annual basis that is awarded through a competitive grant process. Counties/communities are required to have a comprehensive juvenile services plan on file with the Commission. Communities then prioritize areas of need to apply for funding. Applicants can apply for projects ranging from prevention, such as afterschool or mentoring to intervention and after-care programs for youth involved in the system. There is no match requirement; however, cash or in-kind match is strongly encouraged. The Commission adheres to a step-down policy. Awarded applicants can receive funding for the same level for 2 years and will then receive a 25% step down for the next three years, contingent upon available funding, grant management and successful implementation of the program. The first chart in Appendix H, *2009 Juvenile Services Grant Funds*, reflects the applicants who applied and were awarded funds for after school and mentoring projects.

County Juvenile Services Aid program is a non-competitive grant program appropriated by the legislature on an annual basis. There is approximately \$1.4 million dollars available for award. Counties receive a set amount of funding based on a population formula. Counties must submit and have a current comprehensive juvenile service plan on file in order to be eligible for funding. Counties are also required to provide 40% match. Counties then prioritize their County Aid applications based on the priorities in their comprehensive plan. The priorities are similar to the Juvenile Services as they range from prevention to diversion and interventions for court involved youth. The second chart in Appendix H shows the counties who received Juvenile Services Aid program funding for mentoring or after school programming in 2009.

FUNDING TARGETED TO SPECIFIC AREAS OF EXPANDED LEARNING OPPORTUNITIES

Expanded learning opportunities comprise early childhood programs (birth to five), afterschool programs for school age children, and parental involvement programs. For programs targeting these populations, specific information about funding is described.

⁶ *Nebraska Commission on Law Enforcement & Criminal Justice staff; November 2009.*

Early Childhood Care

Early childhood programs are those specifically designed for children from birth to five. Federal and state programs that fund early childhood programs were documented in Nebraska's *Child Care and Development Fund Plan 2008-2009* (Appendix I).⁷ The table includes funding that is available exclusively, or partially, for early childhood programs. Some of the programs include those for young children, as well as those that make funding available for older children. For example, U.S. Department of Education and State of Nebraska Child Care and Development Funds provided \$71 million during 2007-08. Of that amount, 69% (\$49 million) went to children birth through preschool ages, 22% (\$16 million) went to school aged eligible children, and the remaining 8% (\$6 million) was spent for other categorical expenditures (e.g., children having special care needs, care provided in the family's home, other miscellaneous fees charged in child care settings).

Federal funding far outstrips state spending in this area, as shown in the table in Appendix I. The federal government provided approximately \$174 million dollars for programs in Nebraska, including those that serve the birth to 5 population: over \$91 million through the U.S. Department of Health and Human Services; over \$51 million through the U.S. Department of Education; and over \$35 million for Head Start (Head Start is a U.S. Health and Human Services program, but was listed separately for illustrative purposes). In contrast, reporting for the May 2006 through October 2007 period indicated the State of Nebraska contributed approximately \$42 million. Approximately \$37 million was contributed to early childhood care through the Department of Health and Human Services and just over \$5 million through the Nebraska Department of Education.

Afterschool Programs for School Age Children

Afterschool programs serve school age children, some throughout the year and others only during the school year. This report has described a number of afterschool funding programs, such as the 21st Century Community Learning Center federal grant and programs supported by the Nebraska Commission on Law Enforcement and Criminal Justice. To get a better idea of the mix of funding that afterschool programs rely upon, the Nebraska Children and Families Foundation and the Nebraska Community Learning Center Network surveyed afterschool programs in 2008. Survey responses indicated that most (55%) afterschool programs in Nebraska **rely upon two or more sources of funding**. The survey found a wide range of funding sources that support afterschool programs (Table 3). Over half (51%) of the afterschool programs report relying at least partly upon **program fees** to fund operations; 35% receive at least a portion of their support from local funding from sources other than school districts; 31% receive at least partial funding from the U.S. Department of Education; 25% receive at least part of their funding from local school districts; 23% rely at least partly on foundation funding; and the Nebraska Department of Health and Human Services provides at least some funding to 15% of afterschool programs. A small number of expanded learning opportunities programs have been successful in obtaining funds from sources that other programs have not yet tapped (e.g., local government, Community Development Block Grants, faith-based support).

⁷ Attachment 2.1.2B of the *Child Care and Development Fund Plan for Nebraska FFY 2008-2009*.

TABLE 3

NCFF SPRING 2008 SURVEY: PERCENT OF AFTERSCHOOL PROGRAMS DEPENDING ON EACH TYPE OF FUNDING SOURCE	
Funding Source	Percent of Programs Using This Funding Source *
Program Fees	51%
Local Funding Sources other than School Districts	35%
U.S. Dept. of Education	31%
Local School Districts	25%

First Congressional United Church of Christ	1%
Community Development Block Grant	1%
N=105	
*Each respondent had the opportunity to report on each of the types of funding sources that support activities. Because most CLC's rely upon more than one source of funding, the percentages in this table do not add up to 100%.	

Parental Involvement

Although parental involvement is one of the three areas included in expanded learning opportunities, there is little funding specifically devoted to parental involvement. Many programs, such as Title I, have significant parental involvement themes, but only one program, the Parental Information and Research Center federal program, was exclusively dedicated to promoting parental involvement in academic achievement.

CONCLUSIONS AND FUTURE DIRECTIONS

This report summarizes funding for expanded learning opportunities. Although millions of federal and state dollars are being devoted to support expanded learning opportunities, calculated on a per child basis, the figures quickly become fairly nominal amounts (for example, the \$71 million Child Care and Development Fund serves approximately 16,900 children each month, at \$350 per child per month).

Even with the current expenditures, over one-third of Nebraska school age children (that is, 114,040 children) are spending significant time at home after school with no supervision.⁸ Parents desire afterschool programming, but cost is a major barrier.

Where will the funding come from to support high-quality expanded learning opportunities for Nebraska's children? This report suggests some considerations for future exploration.

1. There may be untapped funding that could support expanded learning opportunities in Nebraska. Further investigation should be initiated to identify likely funding, based on eligibility and other program requirements.
2. The State of Nebraska uses federal funding and state funding to support expanded learning opportunities, but advocates should consider assembling evidence of a definitive need for greater funding and the child-focused outcomes that would be achieved.
3. There is no single point of contact or coordination for expanded learning opportunities at the state level, and only a few Nebraska communities have created coordinated efforts at the community level. Greater coordination, at both the state and community levels, among programs that provide expanded learning opportunities may:
 - a. Reveal opportunities for collaboration, certainly for funding, but also for delivery of quality services and advocacy for Nebraska's children.
 - b. Provide a forum for and state and community level information sharing and collaboration among Nebraska's expanded learning opportunity programs that may spawn ideas for additional funding.
4. Although not a focus of this fund mapping effort, it is widely known that other states and regions have benefitted from a number of alternative funding sources:
 - a. There are many one-time/short-term federal competitive and research grants that may provide time-limited support.
 - b. Other states and localities have developed funding through vouchers and tax incentives that should be explored by Nebraska advocates.⁹

⁸ 2009 *America After 3PM Survey*. Nebraska summary included in this report as Appendix A. Nebraska data may also be found at: http://www.afterschoolalliance.org/AA3PM_states.cfm?state_abbr=NE.

⁹ A 2007 Finance Project report, *Snapshots of Sustainability*, profiles successful strategies for funding expanded learning opportunities programs: <http://www.financeproject.org/Publications/SustainabilityProfilesOST.pdf>.

Many of Nebraska's children do not have access to expanded learning opportunities. Mapping funding streams that support expanded learning opportunities programs and coordinating efforts to make best use of funding opportunities remains an important issue, and one that continues to be a primary focus of the Nebraska Community Learning Center Network. Additional copies and updates of this report, along with additional information about expanded learning opportunities, are available at the Nebraska Community Learning Center Network website: <http://www.nebraskalcnetwork.org/>.

DRAFT

APPENDICES

Appendix A

Nebraska After 3PM – Results of America After 3PM 2009 Survey

Nebraska After 3PM

In 2009, Nebraska parents/guardians were asked about their children's regular participation in various after school care arrangements, with a special focus on afterschool program participation and satisfaction. The *America After 3PM* survey identified the supply of and demand for afterschool programs, as well as the major barriers to program enrollment.

After School Care Arrangements

- **36% (114,040)** of Nebraska's K-12 children are responsible for taking care of themselves after school. These children spend an average of **7** hours per week unsupervised after school.
- **11% (33,895)** of Nebraska's K-12 children participate in afterschool programs. On average, afterschool participants spend **7** hours per week in afterschool programs. Participation averages **3** days per week.
- **73%** of Nebraska K-12 children spend some portion of the hours after school in the care of a parent or guardian.
- Other care arrangements include traditional child care centers (**9%**), sibling care (**17%**) and non-parental adult care, such as a grandparent or neighbor (**25%**).

Notes: The maximum amount of time in after school care arrangements is limited to 15 hours per week, which reflects the after school hours of 3:00 to 6:00 p.m. Care arrangements add up to greater than 100% due to multiple regular care arrangements for many children.

Satisfaction with and Support for Afterschool Programs

- **97%** of Nebraska parents are satisfied with the afterschool program their child attends.
- Nebraska parents cited convenient location (**83%**), child enjoyment (**76%**) and affordability (**70%**) and as their top three reasons for selecting an afterschool program.
- **88%** of adults surveyed in Nebraska agree that there should be "some type of organized activity or place for children and teens to go after school every day that provides opportunities to learn" and **77%** support public funding for afterschool programs.

Need or Demand for Afterschool

- **33% (93,351)** of all Nebraska children not in afterschool would be likely to participate if an afterschool program were available in the community, regardless of their current care arrangement.
- Parents of non-participants believe that their children would benefit most from afterschool programs in the following ways: by having fun, receiving academic enrichment, taking advantage of opportunities for community service and learning and staying safe and out of trouble.

Nebraska After 3PM

Barriers to Enrolling in Afterschool Programs

- After lack of need, the predominant obstacles to enrollment include cost, preference for alternative activities and lack of safe transportation.

Contextual Information about Afterschool Programs

- In Nebraska, the public schools are the largest provider of afterschool programs. Private schools, YMCAs, Boys & Girls Clubs and religious organizations round out the top five providers of afterschool programs in the state.
- On average, Nebraska families spend **\$64** per week for afterschool programs.

National Comparison and Trends – 2004 to 2009

	2009		2004	
	Nebraska %	National %	Nebraska %	National %
Percentage of Kids in Afterschool Programs	11	15	9	11
Percentage of Kids in Self Care	36	26	31	25
Percentage of Kids in Sibling Care	17	14	14	11
Percentage of Parents Extremely/Somewhat Satisfied with Afterschool Program	97	89	83	91
Percentage of Kids Who Would Participate if an Afterschool Program were Available	33	38	21	30

About America After 3PM

In Nebraska, 571 households were surveyed for this study. Among those households, 34 percent qualified for free or reduced price lunch, 1 percent was Hispanic and 3 percent were African-American. According to U.S. Department of Education data from 2005-2006, the total school enrollment in Nebraska is 316,778, which is the foundation for all statewide projections in Nebraska After 3PM.

America After 3PM was sponsored by the JCPenney Afterschool Fund. Between March and May 2009, 29,754 parents/guardians responded to survey questions about their after school child care arrangements during the 2008-2009 school year. RTi, a market research firm, conducted the survey and analyzed the data for the Afterschool Alliance. Additional information from America After 3PM is available at www.afterschoolalliance.org.

¹ The information in columns one to five of this table was derived from the Catalog of Federal Domestic Assistance (CFDA); all information can be found online at: <https://www.cfda.gov/>. Accessed November and December 2009. The format and layout for the table was based on the report: “Funding Map for After-School Programs in Colorado: Proposal to Colorado Afterschool Network,” prepared by The Center for Public Private Sector Cooperation and Center for Education Policy Analysis, School of Public Affairs University of Colorado at Denver and Health Sciences Center, July 2007. Information in the last column was gathered from various sources. For some programs, there was incomplete or conflicting information about the funding amount and grantees (in those cases we used the data from FedSpending.org, in general). If there is no source listed for a particular program, the information was reprinted from the August 2008 report, “Expanded Learning Opportunity fund Mapping Project.”

Appendix C

Federal Funding Sources that Support Afterschool Programs (not included in Appendix B table)

Federal Funding Sources that Support Afterschool Programs¹
(*This list includes only the programs not already included in the Appendix B table, above*)

Arts in Education

Child Care Access Means Parents in Schools Program

Child and Adult Care Food Program (CACFP)

Children, Youth and Families At Risk Initiative (CYFAR)

Community Development Block Grant (CDBG): Entitlement Grants

Community Development Block Grant (CDBG): Section 108 Loan Guarantees

Community Development Block Grant (CDBG): States' Program

Community Facilities Loan Program

Community Food Projects

Community Health Centers (Part of Consolidated Health Centers: Community Health Centers, Migrant Health Centers, Health Care for the Homeless, Public Housing Primary Care, and School Based Health Centers)

Community Mental Health Services (CMHS) Block Grant

Community Outreach Partnership Center Program

Community Programs to Improve Minority Health Grant Program

Community Reinvestment Act

Community Services Block Grant (CSBG)

Community Services Block Grant Discretionary Awards

Community-Based Child Abuse Prevention Grants (CBCAP)

Cooperative Agreements for Linking Actions for Unmet Needs in Children's Health: Project LAUNCH

Cooperative Extension Service: 4-H Youth Development Program

Corporation for National and Community Service: Training and Technical Assistance

Drug-Free Communities Support Program

Edward Byrne Memorial Justice Assistance Grant

Environmental Education Grants

Grants for Arts Projects: Learning in the Arts for Children and Youth

Grants to Reduce Alcohol Abuse

Hispanic-Serving Institutions Education Grants

Historically Black Colleges and Universities (HBCU) Program

Indian Education: Grants to Local Educational Agencies

Inexpensive Book Distribution Program (Reading Is Fundamental)

Job Access and Reverse Commute Program

Job Corps

Juvenile Accountability Block Grants (JABG)

Juvenile Justice and Delinquency Prevention: State Formula Grants

Learn and Serve America: Higher Education

Maternal and Child Health Services Block Grant

Medical Assistance Program (Medicaid; Title XIX)

Microloan Program

***The Opportunity of the American Recovery and Reinvestment Act
(ARRA) For Afterschool Programs***

Considerations for Accessing ARRA Funds

Additional Federal Government Resources on ARRA Funding

The Opportunity of the American Recovery and Reinvestment Act (ARRA) For Afterschool Programs¹

The *American Recovery and Reinvestment Act* (ARRA) of 2009 offers several opportunities for afterschool providers to support their programs in a time of economic crisis. The six funding sources highlighted in this document were selected based on their applicability to afterschool programs and their relevance to funding a variety of out-of-school time services. For each funding source, information is included to help providers identify and assess potential funding sources to sustain their programs. Considerations for how to access and leverage these one-time ARRA resources are included, along with a list of online federal government resources for additional research. Since the ARRA presents a one-time opportunity for resources, information for on-going funding to support afterschool programs can be found in the “How to Get Money” Federal Funding Database on the Afterschool.gov website at: <http://www.acf.hhs.gov/afterschoolfund/>.

Funding Source	Administering Agency	Amount of Funding	Timing	How to Access Funding
Child Care and Development Block Grant provides funding to assist low-income families with child care.	U.S. Department of Health and Human Services For more information about this funding stream, visit the U.S. Department of Health and Human Services' ARRA website at: http://www.acf.hhs.gov/programs/ccb/initiatives/arra/index.htm	\$2 billion A State-by-State funding map is available at: http://www.hhs.gov/recovery/programs/acf/child_caremap.html	Funds were released in April 2009. Funds do not require a State match. Funds must be obligated by September 2010 and spent by June 30, 2011 in line with current regulations.	The State lead agency determines funding priorities. Providers can contact the lead agency for more information. Lead agency contact information can be found at: http://nccic.acf.hhs.gov/statedata/dirs/display.cfm?title=ccdf
Title I Grants to LEAs provide funding to help meet the needs of low-achieving students in high poverty schools.	U.S. Department of Education For more information about this funding stream, visit the U.S. Department of Education's ARRA website at: http://www.ed.gov/policy/gen/leg/recovery/index.html	PHASE I \$5 billion in grants to local educational agencies (LEAs) PHASE II \$5 billion in grants to LEAs	PHASE I March 2009 PHASE II Fall 2009	Eligible schools can contact their LEA for information on subgrants. State educational agency (SEA) contact information can be found at: http://wdcrocolp01.ed.gov/Programs/EROD/org_list.cfm?category_ID=SEA
What Works and Innovation Fund provides funding to expand initiatives that have proven to be successful at closing the achievement gap.	U.S. Department of Education For more information about this funding stream, visit the U.S. Department of Education's ARRA website at: http://www.ed.gov/policy/gen/leg/recovery/index.html	\$650 million	Grants will be available in winter 2010.	LEAs and non-profit organizations (in partnership with an LEA or consortium of schools) can apply for funds directly from the U.S. Department of Education.

Funding Source	Administering Agency	Amount of Funding	Timing	How to Access Funding
<p>Enhancing Education Through Technology provides funding to improve student achievement through the use of technology in schools. The program is designed to ensure that every student is technologically literate by the end of eighth grade, and to encourage the successful integration of technology with teacher training and curriculum development to establish successful research-based instructional methods.</p>	<p>U.S. Department of Education</p> <p>For more information about this funding stream, visit the U.S. Department of Education's ARRA website at: http://www.ed.gov/policy/gen/leg/recovery/index.html</p>	<p>\$650 million distributed to States based on their proportionate share of funding under Title I, Part A of the Elementary and Secondary Education Act (ESEA).</p>	<p>Grants will be made to States on July 1, 2009.</p> <p>Funds must be obligated by September 30, 2011.</p>	<p>States must distribute at least 95 percent of their allocation by formula or competitively to LEAs and eligible partnerships. Each LEA and eligible entity that receives funds under this program must use at least 25 percent of its funds to provide professional development.</p> <p>SEA contact information can be found at: http://wdcrobcolp01.ed.gov/Programs/EROD/org_list.cfm?category_ID=SEA</p>
<p>Corporation for National and Community Service provides funding for approximately 13,000 additional AmeriCorps State and National and AmeriCorps VISTA members.</p>	<p>Corporation for National and Community Service</p> <p>For more information about this funding stream, visit the Corporation for National and Community Service's ARRA website at: http://www.nationalservice.gov/about/recovery/index.asp.</p>	<p>\$100 million will be awarded competitively to existing grantees.</p> <p>\$50 million will be distributed to State service commissions based on population; States will then select subgrant recipients.</p>	<p>The Grants Notice was posted on March 10, 2009.</p> <p>The closing date was April 3, 2009.</p>	<p>Providers can contact their Corporation for National and Community Service State service commission to apply for AmeriCorps VISTA members.</p> <p>State service commission contact information can be found at: http://www.nationalservice.gov/about/contact/statecommission.asp</p>
<p>Workforce Investment Act Youth Training and Employment Services provides funding for low-income youth ages 14-24 to acquire skills, training, and support to achieve academic and employment success, with a focus on creating summer employment opportunities.</p>	<p>U.S. Department of Labor</p> <p>For more information about this funding stream, visit the U.S. Department of Labor's ARRA website at: http://www.dol.gov/Recovery/.</p>	<p>\$1.2 billion total for youth activities</p> <p>States may develop an estimate of the funds they will receive based on their historic percentage of WIA funds applied against the total.</p>	<p>Funds were made available in March 2009.</p> <p>Funds must be obligated by September 2010, and spent by June 30, 2011 in line with current regulations.</p>	<p>Providers can contact their Local Workforce Investment Board (WIB) and their youth council, who oversee the distribution of WIA funding.</p> <p>Local WIB contact information can be found at: http://www.nawb.org/WorkforceBoardWebSites/tabid/167/Default.aspx</p>

Considerations for Afterschool Providers Preparing to Access ARRA Funds²

- 1. Focus Your Efforts.** Identify priorities in your program's mission and goals in consideration of the anticipated funding opportunities included in the economic stimulus plans. Meet with key policy makers and stakeholders, including your program's advisory board or board of directors, to review program goals and finances. While it may be tempting to seek out all relevant funding opportunities, a purposeful matching of your program's goals and focus with the criteria for new funding may help to increase your program's ability to access competitive discretionary funds or strengthening partnerships with State agencies that administer formula grant funds.
- 2. Recognize the Short-Term Nature of ARRA Funding.** Short-term funding is most appropriate for expanding capacity to deliver services, spurring innovation, and building and enhancing infrastructure. While these funds can fill critical gaps, they do not offer long-term support for expansion of services. Thus, it will be important for programs to think about what other funding sources can be blended to help sustain ARRA investments.
- 3. Demonstrate Impact.** Given the size of the federal stimulus funding and public concern regarding the oversight of federal economic investments, ARRA funding will be subject to unprecedented levels of accountability and transparency. Afterschool programs and partners with data collection capacity and a demonstrated record of success may be able to compete more effectively for stimulus funds. Review past successful grant applications and proposals and ensure evaluation and outcome data are valid, reliable, and up-to-date.
- 4. Prepare Ahead.** Create an electronic grants application account in preparation for applying for federal funds. For federal funding through the U.S. Department of Education, the portal for electronic grants is found at: <https://e-grants.ed.gov/>. For federal grant applications from other federal agencies, such as the Department of Agriculture or the Department of Health and Human Services, the portal is found at Grants.gov (<http://www.grants.gov/>). Applications for federal discretionary grants must be made through the appropriate electronic grants system. Applicants must have an active account on the system to apply. Allow time for the processing of your application: the Grants.gov site indicates that "the registration process for an Organization or an Individual can take between three to five business days, or as long as two weeks." Also note that the system occasionally experiences difficulty during times of increased demand.
- 5. Leverage Additional Funding.** Grantees that are able to demonstrate strong management practices and successful programmatic outcomes with the ARRA funds may be well-positioned for future funding opportunities. The vast majority of ARRA funding is allocated through existing federal formula/block and discretionary grant programs, such as Title I of the ESEA, the Workforce Investment Act (WIA), and AmeriCorps, among others. For example, the recent enactment of the Edward M. Kennedy Serve America Act reauthorized and expanded national service programs administered by the Corporation for National and Community Service, including an

² This information was reprinted from the Afterschool.gov Web site: <http://www.afterschool.gov/arra/arra.html>; accessed December 2009.

increase in AmeriCorps from 75,000 to 250,000 positions, which may provide additional staff for afterschool programs.

- 6. Collaborate.** Establish relationships with local school systems and community-based and faith-based partners. Schedule strategic meetings to discuss potential federal funding opportunities and areas for possible collaboration. Consider reserving time on key staff people's calendars to develop proposal components, including letters of support.

Get Information. Consult federal websites for up-to-date information on how, when, and where the ARRA funds will be spent in your State, territory or Tribe (see below for a list of online resources). Programs can also monitor *Federal Register* notices for grant announcements and funding opportunities as they are released.

Summer 2008 Survey of Organizations that Fund Expanded Learning Opportunities

Survey of Nebraska Funding Sources

To begin describing the types of public and private funding being used to support expanded learning opportunities, a convenience sample of Nebraska funders was surveyed in July and August 2008. Approximately 40 organizations were invited to complete an on-line survey. Each potential respondent was contacted via telephone or email and was invited to complete the online survey. To reach as many organizations as possible, each organization was encouraged to forward the online survey link to others who might be able to provide useful information.

There were 18 respondents to the survey and 4 respondents that chose to report on more than one program, effectively giving us 22 responses to our inquiry. The survey was in no way intended to be scientific; the survey simply served to provide greater texture to the other information sources compiled in the University of Nebraska Public Policy Center August 2008 “Expanded Learning Opportunity Fund Mapping Project Report.” Although the survey only began to reach the multitude of funders in the state, the results provided a starting place and a glimpse of funding sources.

Table 1 categorizes the survey responses based on the type of organization. The broad array of organizations represented is indicative of the range of funding streams that contribute to the delivery of services in this area.

Table 1

SUMMER 2008 SURVEY OF ORGANIZATIONS THAT FUND EXPANDED LEARNING OPPORTUNITIES IN NEBRASKA	
Organization	Description of Amount/Range of Annual Funding (NOTE: <i>Expanded Learning Opportunities receive only a portion of total annual funding</i>)
Nebraska Department of Health and Human Services	<ul style="list-style-type: none"> ○ Approximately \$15.67 million in child care funds for eligible school-aged children, with additional \$4.68 million in earmarked funds for raising quality in child care. ○ \$2.5 million for services through child welfare. ○ \$9 million federal grant to fight youth alcohol use over the next 4 years
Nebraska Department of Education	<ul style="list-style-type: none"> ○ Over \$26 million for Education for Individuals with Disabilities; ○ About \$4.5 million for 21st CCLC
Nebraska Workforce Development – Department of Labor	<ul style="list-style-type: none"> ○ About \$2.5 million for Workforce Investment Act Title I B
Nebraska Coalition for Juvenile Justice	<ul style="list-style-type: none"> ○ About \$500,000 for Juvenile Services Grant Funds ○ Around \$1.5 million for County Juvenile Services Aid Program
Foundation/Charitable Organizations	Varied levels of funding reported: <ul style="list-style-type: none"> ○ \$3,000 from a small local foundation, ○ \$100,000 from a large local foundation, ○ \$260,000 from a statewide charitable organization, ○ \$3.5 million budget for 43 programs from large charitable organization

In this small convenience survey of funders, an overwhelming majority (90%) believed that funding for their programs was “firm/reliable,” meaning they felt that funding for their particular programs is secure into the foreseeable future. This evidence suggests a much greater confidence in funding than may be felt at the service delivery level.

Funding Sources

Respondents were asked to provide information on numerous programs. The results of that question show that the primary source of dollars was the federal government, followed by state government, businesses and corporations, donations and foundations. A large majority of respondents reported using a combination of these funding sources to fund various services. However, the survey did not allow us to measure how heavily each organization relies on one source of funds compared to another.

Table 2

What is (are) the source(s) of funds that are made available for this program?	
Source	Frequency
Federal Government	13
State Government	8
Businesses/Corporations	7
Donations	7
Foundation	5
Fee for Service	3
Other	2
City/County Government	0

The Future of Funding

Respondents were asked how they felt about the future of funding for the mechanism they identified in the survey. A vast majority (20) of the respondents reported feeling that the funding for their programs was firm/reliable. This is in comparison to two respondents that felt funding for their program was soft/vulnerable.

Table 3

How do you view the sustainability of the program?	
Firm/Reliable	20
Soft/Vulnerable	2

Specifics of Funding

When asked whether there was a matching requirement for the program in question, 18 of 22 respondents indicated that no matching requirement existed.

Table 4

Is there a matching requirement for the program?	
Yes	4
No	18

¹ Attachment 2.1.2B of the “Child Care and Development Fund Plan for Nebraska FFY 2008-2009.” The information can be found on the Nebraska Department of Health and Human Services Web site at <http://www.dhhs.ne.gov/chs/chc/docs/CCDF-StatePlan.pdf>. Accessed July, 2008. This table provides a “snapshot” of the funding sources contributing to the early childhood system in Nebraska. These funds are generally made available annually, but may represent different fiscal years. The document summarizes allocations made, the general purpose of the funds, and when available, data was provided as to numbers served, and eligibility required. The information provided is for those allocations/appropriations as known and communicated during the time period October 2006-May 2007. Information was compiled by Nebraska's Together for Kids and Families Project.
